OVAL 15ZERO DAVIT

Simpson Davits

This innovative davit is a stylish addition to the Simpson Davits range.

Using high quality 316 marine grade stainless, we have developed a contemporary davit solution.

The rope handling system lifts the tender clear of the bathing platform, once raised it will retract and stow the tender securely under the davit.

Together with a horizontally mounted winch the OVAL 15ZERO offers simple, ergonomic operation.

The OVAL 15ZERO Davit comes with the standard Simpson Davits 3 year warranty.
